# PREVENTIVE CARE PLAN OVERVIEW

Dogs and cats age at a much faster rate than people. For every year that you age, your dog or cat can age from 6 to 8 years.

Your pet's medical and nutritional needs change as their bodies age. A **Wellness Plan** helps manage their evolving healthcare needs by monitoring vital organ function and detecting problems early, before they become life threatening.

Every **Adult Wellness Plan** offered by **Atlantic Veterinary Hospital** includes all examinations, vaccines, laboratory tests and other services essential to help protect your pet against illness and disease. An upgraded plan is designed to provide additional services like routine dental cleanings, dental radiographs, and more extensive blood work. Our goal is to keep your pet healthy and happy during the prime years of his or her life.

**Adult Wellness Plans are designed for pets older than 7 months of age.**
